LANGUAGES

Spanish Native

German

C1 level. Two years living in Germany improving the language.

English

Fluid spoken and written, with certification of AACI (Asociación Argentina de Cultura inglesa).

EXPERIENCE

2019 · Present **Muson GmbH - Industrial Designer**

I perform several kinds of designs and Tasks: 3D modelling and printing in a SLA 3D printer for the Berliner Schloß-Humboldt Forum. Design of a Point of sale display for KaDeWe. Design, technical documentation and management with chinese suppliers of small accessories like phone cases.

2015 · 2018 **Independant professional - Freelance**

Germany: Product designs for 3D prints and prototypes. Argentina: YPF Bolivia: Revamp, 3d modelling of a 3D scan of Spherical gas containers - Celsus craft beer: Nano Brewery development. Mechanic: VW repair shop.

2014 · 2015 **Questt S.A.**

Project Leader. Design and development of a 4 axes Robotic arm. Engineering, transmission, esthetic and prototype ensamble. Technical documentation. Basic programming and service of Nachi and Epson industrial Robots.

2013 · 2014 **Ingetek S.A.**

Piping designer, 2D y 3D. In this job we made projects for clients such as Shell, Petrobras, Axion energy, etc.

2008 · 2009 **Automatic (Pedro Schroer srl.)**

Mechanical designer. Involved in Industrial automation. I was in charge of making technical documentation for metal parts fabrication, suppliers, and many others.

EDUCATION

2006 · 2013 **Industrial Designer degree**

University of Buenos Aires (UBA) - Argentina
Career finished in December 2013, with a Thesis that won a subvention for development.

SOFTWARE SKILLS

3D modeling: Solidworks, Rhinoceros and AutoCad 2D/3D

Rendering: Key-shot, Photoworks and V-ray.

Graphic design: Adobe illustrator - Photoshop, CorelDraw.

Others: MS Office.

JONATAN JAHNEL

INDUSTRIAL DESIGNER

CLASSES AND SEMINARS

2013 INPI Argentina Patenting and registering of industrial models.
Duration: 3 days.

2008 Rhinoceros 3D modeling.
27 hs - Mcnel Latin América

2008 Cars sketching.
(Hand drawing and rendering techniques - 24 hs - Extensión FADU-UBA)

2007 Autocad 2D y 3D.
6 months - CAI Informática

EXPOSITIONS

- 2013 **Innovar Competition.** Finalist with Eloop, the prototype of an electric vehicle in the Innovative Industrial Design product category in Buenos Aires.
- 2013 **EMAQ.** Expositor of Eloop, an electric vehicle in a Fair of machines and industrial tools in Buenos Aires.
- 2011 **Expo UBA.** Expositor of an innovative wooden nuts breaker, selected in a group of the best of the cathedra.

OTHERS

Volunteer Work

Ireland: Installation and calibration of a sun tracker solar panel system.
Croatia - Hvar Island: all around Mechanic, Van, Outboard engine, Power generator, etc.

Prototypes and suppliers

Along my career I had the chance to make several kind of prototypes, starting with small wooden objects up to an electric vehicle or a robotic arm. I believe it is here when a design takes true magnitude, it is tested, and I think, where more you learn. It is also good training dealing with suppliers.

Models and workshop work

Huge experience making models in many materials, such as plastic, wood, aluminum. Paint jobs using compressor with paint gun. Lot of hours using machine tools. Welding, wiring, and many others workshop tasks.

Hobbies

Im interested in classic cars, aircooled volkswagens. In my family we own a 1951 split beetle that we restored in our facilities. (My father and brother repair and restore these kind of vehicles).

Sports

Mountaineering, trekking. Ride the LongBoard, FreeLines, SkateCycle, etc.
